Possible Task Questions

1. You have a colleague at UC Davis who will be living near the Parnassus campus for a few months, taking care of a family emergency. However, she is in the midst of research and casually mentioned to you that she hopes UCSF Library will be able to loan her materials and that she will be able to make interlibrary loan requests at the UCSF Library. You decide to do her a favor and find out.

2. You need to find out if a book is located in the Library, and if so, where. The name of the book is *Cardiovascular Solid Mechanics*.

3. You need to reserve a group study room on Parnassus.

4. It's 2am, but you have a research question you would like to ask a reference librarian. Is there a way you can ask your question?

5. [make sure user is on Guest wifi] You need to get the PDF version of the following article, so you can review the included tables. "A systematic review to evaluate the clinical benefits of craniosacral therapy" in the journal *Complementary Therapies in Medicine*

6. Your professor has told you they have put a textbook “on reserve at the library.” Where in the library do you need to go to get this book? Find out if you can check it out, as well as how long you can keep this book.

7. You need to get a photocopy of an article from a journal that UCSF Library does not own. You have heard that there is a form you can fill out so that the Library will get it for you. What do you need to do to get the article? How would you get help if it's not working?

8. You want to renew the books you have checked out. Is it possible to do this from the Library's Website? If not, what number would you call to renew your books?

9. What time does the Parnassus Library open on Sundays? What about Mission Bay?

10. Can you find a dissertation on Pharmacogenomics?

12. Can you get the 2012 article, "Biological aspects of postpartum depression" from *Women's Health*?

13. Can you get the 1996 article, "The ecstasy subculture: Beyond the rave" from the journal *Anthropology & medicine*? (super-hard whammy question)

14. Can you find the book *A flourishing Yin*? Can it be checked out?

15. You are writing a paper for an advanced course in Biochemistry. Find an article in a peer-reviewed journal on turmeric and cancer.

16. You need an overview of the best tools for evidence based practice in nursing.

17. You're looking for a getting started guide for using RefWorks to manage your citations.

18. ALSO a question or two about computing -- let's see what Erin and Ryan were asking recently.
