

Calisphere / Shared DAMS Workspace

Welcome! This is a working space for everyone in the UC Libraries involved in ongoing planning for, collaborating on, and contributing to Calisphere and the Shared DAMS. Please also [subscribe to our mailing list](#).

Looking for the UCLDC Project (2013-2015)? We kept the important stuff on the [Project Summary page](#).

Collaborate with us

In addition to maintaining the Calisphere service, we are continuing to build it. We welcome participation by anyone and everyone in the campus libraries.

Campus workspaces	Campus-specific meeting notes and collaborative documents
User group workspace	Here's where we pose questions for feedback, plan group calls, dive into special projects, etc. Get involved!
For developers	API documentation and other info to help you build your own cool products

Track our progress

Roadmaps	Bigger, more complex projects or development work we are currently undertaking
--------------------------	--

For ongoing fixes and improvements, we use Pivotal Tracker to store your feedback and prioritize our work. We maintain two queues. Pop your head in to see what we're up to – and let us know if you have anything to add.

Operations	Issues, bugs, and ingest / harvest of your content into Calisphere (and OAC)
Product development	New features and development around end-user access on Calisphere
Harvesting queue	Track what collections we're working on harvesting to Calisphere

For collection holders

Documentation and user guides	Everything you need to know about getting content to the DAMS and Calisphere. Plus policies, API, and more!
Contact us!	Send us your questions, comments, ideas, and concerns.
