

# Precepting Bridges Students in F2

## Overview

This page contains materials for a workshop that helps clinical preceptors prepare for working with Bridges students during the clerkships. The workshop is designed for delivery by clerkship directors, coaches and other faculty who have experience with the Bridges curriculum. There are 4 modules, an introductory module and 3 modules about aspects of the Bridges curriculum that impact teaching during the clerkships. The modules can be delivered together or separately, which gives you flexibility if you are limited by time or are interested in one or two topics only. The resources (ppt and word files) linked on this page can be customized to your audience, this is indicated in highlighted (yellow) font.

Module	Time Needed	Activities	Description	Resources
Introduction	10 minutes	Presentation	The powerpoint provides a brief orientation to the Bridges curriculum, focused on Foundations 2.  The handout contains information pertinent to all 3 modules but can easily be broken up.	<ul style="list-style-type: none"> <li>• <a href="#">PowerPoint</a></li> <li>• <a href="#">Video Intro</a> (link also included in PowerPoint)</li> <li>• <a href="#">Tips, Terms, and Tools Handout</a> (for all 3 modules)</li> </ul>
Communication / Diversity, Equity and Inclusion	30 minutes	Presentation  Small group activity	The powerpoint combines information about the communication training Bridges students get with a short summary of key elements addressed in the Differences Matter orientation.	<ul style="list-style-type: none"> <li>• <a href="#">PowerPoint</a></li> <li>• <a href="#">Microaggression group activity</a></li> <li>• <a href="#">Inclusion Video</a> (link also included in PowerPoint)</li> </ul>
Diagnostic Reasoning	20 minutes	Presentation  Role play	The powerpoint summarizes key concepts of clinical reasoning Bridges students are taught. The video provides an example of how to precept students in a way that helps them further develop their skills, and the role play allows faculty to practice this.	<ul style="list-style-type: none"> <li>• <a href="#">PowerPoint</a></li> <li>• <a href="#">Clinical reasoning role play</a></li> <li>• <a href="#">Promoting Clinical Reasoning Video</a></li> <li>• <a href="#">Other clinical reasoning videos</a> (for reference only, can be shared with faculty who are interested in learning more)</li> </ul>
Basic ("Foundational") Sciences	15 minutes	Presentation  Practice case	This module provides ideas and examples for integrating foundational science into clinical teaching.	<ul style="list-style-type: none"> <li>• <a href="#">PowerPoint</a> (practice case included in ppt)</li> </ul>
