

IdP Setup

- [Tomcat - Part 1](#)
- [Install Java](#)
- [Install Shibboleth IdP](#)
- [Tomcat - Part 2](#)

Tomcat - Part 1

Note: Part 2 is below.

Download and install the latest Tomcat 6.x from Apache:

<http://tomcat.apache.org/download-60.cgi>

Install it where you want, but usually in /opt/tomcat.

Configure Tomcat

<https://spaces.internet2.edu/display/SHIB2/IdPApacheTomcatPrepare>

mod_jk:

<https://spaces.internet2.edu/display/SHIB/JKIdPInstall>

Install Java

Download and install the latest Java 1.6 from Sun/Oracle:

Install Shibboleth IdP

Download and install the latest 2.x Shibboleth IdP from Internet2:

<http://shibboleth.internet2.edu/downloads/shibboleth/idp/latest/>

<https://spaces.internet2.edu/display/SHIB2/IdPInstall>

Configure /opt/shibboleth-idp/conf/login.config. Details on the LDAP connector can be found here:

<http://code.google.com/p/vt-middleware/wiki/vtldapJAAS>

Tomcat - Part 2

Configure crypto stuff:

<https://spaces.internet2.edu/display/SHIB2/IdPProdJVMTuning>
